

About Signia

Signia is one of the leading hearing aid brands in the world. Our goal is to enhance human performance through iconic innovations that shape the prescription audio category. We refuse to accept hearing loss as a limitation. It's not about correcting a loss, it's about gaining an edge. Not just performing, performing brilliantly. Not just hearing again, but hearing better than ever. Hearing every word, beat, and breath. With Signia, you can Be Brilliant.

** Data on file

*** Study conducted at the University of Northern Colorado, 2015, examined the effectiveness of new Signia features by collecting and analyzing ongoing EEG data while subjects performed speech testing. For both Signia features SpeechMaster and EchoShield, the objective brain behavior measures revealed a significant reduction in listening effort when the feature was activated.

Be Brilliant™

Xperience Portfolio 2021

signia

A new world of hearing possibilities

Signia Xperience

Empowering people to hear what matters

How do you convince people with hearing loss who have not yet decided to wear hearing aids to do so? At Signia, we have dedicated ourselves to this challenge by finding ways for our newest solutions to help their wearers Be Brilliant. People with hearing loss do not want to feel old because they aren't old. They want hearing solutions that match their active lifestyle and can-do spirit.

Our latest rechargeable innovations combine leading audiological performance with a design and ease-of-use that appeals to your potential clients because they already enjoy it with their consumer products. These 21st century sound solutions empower more of your clients than ever before to Be Brilliant.

New

Signia Active Pro

The revolutionary Signia Active Pro defines a new category, designed to attract new customers who simply would not wear traditional hearing aids.

New

Signia Motion X

The next generation Signia Motion X BTE portfolio is rechargeable, empowering people with moderate to profound hearing loss to perform at their very best.

Be Brilliant with Signia Active Pro

Upgrade to the future with Signia Active Pro

Our game-changing Signia Active Pro takes hearing aids to that next level for you: Prescription audio that enhances human performance and enables wearers to Be Brilliant. Signia Active can be put in and taken out of the ears as easily as any earbud. Modern-looking, easy to use and fast to fit, these handy devices mark a whole new category of hearing solutions – for everyone who doesn't want to wear hearing aids but wants to enjoy hearing everything that's important to them.

Signia Active Pro combines iconic user-friendly design similar to premium consumer audio products with audiological high-tech. This includes Signia Xperience YourSound technology for superior speech understanding in noise, Bluetooth connectivity for music and phone calls on the go, and portable Li-ion rechargeability for full flexibility and independence with the pocket-sized Signia Active Charger.

Prescription audio that performs

Personally tailored sound in a popular design

Bridging the gap between state-of-the-art hearing technology and desirable consumer products, Signia Active Pro and the budget starter version Signia Active are your perfect offer for anyone tempted to look at over-the-counter devices to improve their hearing. The familiar look and feel means other people won't even recognize them as hearing aids – you see similar-looking buds in almost every ear.

Consumer tests show that there is a strong desire for such a solution: Two out of three people would prefer to wear earbuds to hear better instead of the most stylish high-tech hearing aids previously available.**

With the instant-fit Signia Active Pro and Signia Active, you can offer new and existing customers personally tailored prescription audio in the style of normal earbuds. Combined with the self-service convenience of the Signia Assistant and TeleCare full remote service, wearers enjoy the best of both worlds: A groundbreaking Bluetooth-enabled Li-ion hearing aid that looks and feels like a high-end wearable.

Sleeves

The sleeves come in four different sizes and a closed and open build version suitable for most ear anatomies and hearing needs.

Signia Active Pro comes in a pocket-sized Qi wireless charging case that lets wearers put the buds in and out of their ears when they need them.

Upgrade to Signia Motion X

Experience the full potential of modern BTEs

At Signia, we understand how important it is to not only hear well but be aware in every situation and have a device which looks good and works brilliantly. Our new Motion X range of rechargeable BTEs offers the ideal setup for those looking to perform at their very best

From small and sleek to fully loaded with Super Power, these innovative hearing aids reflect the dynamism of modern life and take high-tech BTE performance to a whole new level. Built on the proven Signia Xperience platform with the world's first acoustic-motion sensors, Motion X hearing aids adapt to every move so you always hear what matters. They come with Li-ion charging for complete flexibility and with Bluetooth connectivity for phone calls, music and more. Plus the revolutionary Signia Assistant lets your patients enjoy 24/7 support via the Signia app on their smartphone.

Super Power your hearing

Hear what really matters to you

The new Signia Motion X range of sleek, modern, rechargeable devices stands up to any challenge to let their wearers Be Brilliant:

Motion Charge&Go X

Comparable in its small size to a 312-device, the new Motion Charge&Go X is the ultimate BTE combining sleek design with rechargeability, Bluetooth, and the Signia Assistant.

Motion Charge&Go P X

Smaller than its predecessor without compromising on power, the new Motion Charge&Go P X combines all the latest Signia Xperience hearing technology with the complete convenience of Li-ion recharging, making annoying battery changes a thing of the past.

Motion Charge&Go SP X

Closing the gap between Super Power and super features, the innovative Motion Charge&Go SP X ultra-power device is the complete package for those who want to Be Brilliant despite severe to profound hearing loss.

All three of our innovative Motion X hearing aids come with an optional charger that includes a UV Dry&Clean function.

Styletto X

A new era of wearability

Styletto X is the complete package hearing aid ideal for anyone who doesn't want to compromise on their active lifestyle just because of hearing loss. The world's first SLIM-IC combines brilliant, award-winning design* and portable rechargeability with exchangeable receivers, the clear sound and speech understanding of our revolutionary Signia Xperience platform, and Bluetooth connectivity.

This unique form factor can significantly increase your conversion of people with hearing loss into satisfied clients. When consumers were given a selection of hearing aids to choose from, Styletto increased conversion by 18%.

Silk X

Discretion guaranteed

Silk X is the ideal solution for those who value discretion above all. The only ready-to-wear CIC available on the Signia Xperience platform delivers clear speech understanding in an ultra-discreet size with instant fit.

It is tailor-made without the wait: Your clients can walk in, experience Silk X and walk out the door with a new CIC without having to wait for a custom-built device. Thanks to its flexible silicone Click Sleeves, Silk X sits securely in the ear for a brilliant fit on the spot.

Pure Charge & Go X / Pure 312 X

Fully versatile, fully connected

With their sleek design, the brilliant RICs Pure Charge&Go X and Pure 312 X combine all the advantages of Signia Xperience with fully featured Bluetooth connectivity for streaming music, calls and TV in high-quality sound. All in a remarkably small design.

Pure Charge&Go X also offers full flexibility and convenience for higher wearer satisfaction with its Li-ion rechargeability – simply Charge&Go!

Signia Assistant

Your very own hearing companion

Imagine being able to help your clients to Be Brilliant every single step of their hearing journey outside your office? Now you can – with the revolutionary Signia Assistant. All your clients need is their Signia Xperience hearing aids and the Signia app.

With the Signia Assistant you can:

- Give your clients the assurance of 24/7 support
- Increase your client satisfaction and conversion rate with the power to address hearing aid wearers' needs more accurately
- Increase the quality of follow-up appointments through a new level of real-world usage insights
- Fine-tune with ease by seeing exactly how your clients choose to personalize their hearing experience
