With our latest innovations,
now everyone can connect to the conversation

Introducing Motion Charge&Go M/P/SP IX and Insio IX CA/HS/ITE

Motion Charge&Go M/P/SP IX

- The best rechargeable BTE range for all levels of hearing loss – up to 82 dB gain
- The longest battery life in a rechargeable SP BTE with up to 65 hours of runtime with 5 hours of streaming**
- Offering Bluetooth® connectivity via MFi, ASHA, and LE Audio
- Compatible with StreamLine Mic, TV Sound, and Signia App providing expanded access to your patients

Insio IX CA/HS/ITE

- Choose a rotary volume control, programmable push button, or both—configurations are flexible to suit user preference and style
- Integrated telecoil option for better hearing in challenging environments supported by a loop system
- Ultra-fast, always-on NFMI e2e wireless 4.0 allows hearing aids to track and enhance multiple speakers in noisy environments
- Expanding patient access with compatibility to miniPocket and Signia App

Revolutionary Speech Processing

RealTime Conversation Enhancement powers speech understanding for group conversations in noise

Inclusive Device Range

No longer limited by level of hearing loss or specific medical conditions

Thoughtful Design

Simple and effective solutions for you and your patients
