About Signia

Only Signia combines industry-leading audiology and technology to deliver iconic innovations in hearing to enhance human performance. We put hearing aid wearers first, with products that fit their wants, needs and style. The wearer is at the center of our universe and their needs are woven into our DNA.

For us, this is not about correcting a loss, it's about gaining an edge. Not just performing, but performing at their best.

Be Brilliant™

Powerful Charge, Empowering Sound

Signia Motion X

Enhancing Human Performance with Signia Motion Charge&Go hearing aids

If you have moderate to severe hearing loss, you depend heavily on your hearing aid. Not just for catching the total at the grocery checkout line or the specials at a restaurant, but for the real connections and sounds that give life meaning. And it all starts with a hearing aid that can support you.

Bluetooth Streaming

Smaller Design

Brilliant Sound

Rechargeable

Enhanced Speech Understanding

Automatic Situation Detection

Digital Assistant

Face Mask Mode

Comfort and convenience

Signia Motion Charge&Go hearing aids give wearers with any degree of hearing loss an elevated hearing experience and the independence that comes with a hearing aid that lasts all day. With a smaller, compact design and high-quality bluetooth streaming of phone calls, music and more straight to your ears, better hearing is both comfortable and convenient.

Black Granite Grey Silver Beige

Pearl white Dark champagne Sandy brown Deep brown Rose gold

Empowering all around

With the first-of-its-kind Signia Xperience platform, your hearing aids will adapt and maintain awareness to the world around you, providing better hearing in noise and enhancing your life.

And never worry about power — all Signia Motion Charge&Go models come with compact chargers — and the world's first Rechargeable Super Power offers up to 61 hours of wear time on a single charge.

Ask your hearing care professional about the right model and charger option for you!

Hear better with fewer compromises

- Better hearing in noisy environments
- Adaptive motion sensor technology that optimizes sounds based on movements to improve spatial awareness
- Hear your own voice like you remember
- Optional Telecoil (T-coil) to wirelessly stream in looping environments (like museums, churches, movies, etc.)
- Sound therapy solutions to help distract you from the ringing in your ears (Tinnitus)

Personal support, at your fingertips

Signia is committed to helping you live your life without interruptions - that means on-the-go support and leading technology all in one. Through Signia's advanced app, users have access to hearing aid controls, streaming capabilities with multiple devices, and so much more.

- On demand support via the digital assistant
- Improved communications when wearing masks at the touch of a button with Face Mask Mode
- Virtual connection to your health care provider for remote care services via Signia Telecare

Compatible with Android and iOS. The app is free of charge.
