

This letter certifies that the following hearing aid product lines have the two-way communication “HandsFree” or “Headset Mode” disabled at the hearing aid firmware level by a Hearing Care Professional. In addition, firmware level updates will not enable this functionality, nor can the hearing aid wearer enable this functionality at the hearing aid level or smartphone app. The Signia hearing aids that have been provided to the hearing aid wearer meet the requirements for approved use within supported Sensitive Compartmented Information Facilities (SCIF).

Hearing Aid Product Lines:

Selecting a product line from the list below encompasses any performance/technology level for that item. The IX products include performance/technology levels 7 IX, 5 IX, 3 IX, 2 IX, and 1 IX (Motion Charge&Go M/P/SP IX are available in 7 IX, 5 IX, 3 IX). The AX products include performance/technology levels 7 AX, 5 AX, 3 AX, 2 AX, and 1 AX.
